krajobraz / hortikultura

hortikulturni zakrivljeni cvjetni otoci
'brdašca' maksimalne visine hrbara do 1 m zasađena su visokim travama i niskim grmovima magnolija do 3 m visine Magnolia liliiflora 'Nigra', Magnolia x soulangeana, Magnolia denudata, Magnolia stellata 'Jane Platt'. U donjem sloju zamišljene su niske trave, koje će svojim rastom u busenima, dodatno naglasiti amorfni oblik "otoka", a svojom fragilnosti pratiti svaki gradski povjetarac.
